Compared With Area in Other Fires

OVER 10,000 ACRES IN BURNED AREA

(By Associated Press.)

OAKLAND, CALL, April 25.—The Oakland Tribune to-day says:

"An engineer states that the area devastated by fire in San Francisco approximates 10,000 acres, or about 15 square miles. There are few cities in the world where so much valuable property is contained it an equal territory. Within this 15 square miles, were nearly 100 banks, some of the finest buildings in the world, thousands of mercantile and manufacturing establishments and more than 250,000 inhabitants, besides 40,000 translents.

20,000 inhabitants, hesides 40,000 transients.

Notwithstanding the enermous and widesprend destruction the home of 150,000 people are still standing and practically uninjured. There still remain the great ship yards at the Portrero, the Pacific Mail docks, the stock yards at South San Francisco, the docks and manufacturies along the water front from Mission Creek to Hunters Point, the Mint, the post-office and a large retail district on Fillmore and Devisadero Streets.

RELIEF WORK IS IN GOOD SHAPE

SAN FRANCISCO, CAL., April 25.—The relief work has made rupid progress. It is now in the hands of the military authorities, and has been perfected and systematized until the feeding and sheltering of the thousands of hungry and homeless people is going on expeditiously. Five hundred teams are hauling supplies to the sixty-odd relief depots to-day. There is still a scarcity of sugar and coffee, and an urgent and pressing need for more blankets, cots and tents, owing to the unusual cold nights for this season of the year, which now prevail.

With the relaxation of the military law and the abolishing of passes, per-mitting people to the city, thousands of curlosity-seekers were attracted from across the bay yesterday and to-day, and hundreds gazed sadly on the rulns of their homes and dug through the ashes ome treasured memento.
